Decline in Cables and Immense Increase in World's Visible Supply.

VALUES TAKE ANOTHER SLUMP

Receipts Are Liberal and Slow De and for All Cereals Leaves Little Prospect for Material

Change.

OMAHA. Oct. 6, 1908.

With further declines in cables and the immense increase in the world's visible supply wheat values summed again today.

The situation has remained practically the same, with receipts liberal and slow demand for all cereals, and there seems very little prospect of any material change.

Wheat started weak and lower on weak cables and continued heavy receipts. Later the world's visible supply increase caused easier feeling and values were sold off steadily. December wheat opened at 25%c and closed at 25%c.

Corn sold lower with wheat and lack of buying power. Selling was general and offerings went begging. Cash stuff was a drug on the market and was only taken in small lots. December corn opened at 25%c and closed at 15%c.

Primary wheat receipts were 2,08,000 bu. and shipments were 1,285,000 bu. and shipments were 209,000 bu., against receipts last year of 1,356,000 bu. and shipments were 269,000 bu., against receipts were 264,000 bu. and shipments were 269,000 bu., against receipts last year of 863,000 bu. and shipments were 268,000 bu. and shipments were 269,000 bu., against receipts last year of 863,000 bu. and shipments were 269,000 bu., and shipments were 269,000 bu., and shipments were 269,000 bu., of corn, 1,000 bu.

Clearances were 10 bu, of corn, 1,000 bu. OMAHA. Oct. 6, 1908.

RISE EARLY ON HEAVY BUYING

Adjournment of Northern Pacific Directors Without Beclaring Cash Dividend Causes Stump In Prices.

NEW YORK, Oct. 5.—Whether on account of the Balkan war cloud or for some other reason, there was much nervousness manifest in today's stock market. Fitful and irregular fluctuations of prices fol A vigorous show of resistance to the pre-valling depression of foreign markets was rade at the opening, when heavy buying orders forced prices upwards with some A vigorous show of resistance to the prevailing depression of foreign markets was made at the opening, when heavy buying orders forced prices upwards with some violence. The aggressive operations in Union Pacific led to a supposition that the leadership of the market was being reasserted by the forces long supposed to be in control. Buying to cover by the short interest which sold freely in the final break yesterday was an element in the spurt. The news arriving from abroad by that time was also of a reassuring character and the report of the Turkish sultan's intention to appeal to a conference of the powers rather than to declare war against Bulgaria was regarded as offering a means of peaceful solution of the complication. The alignment of the powers on the new situation presented is watched with manifest anxiety and all indications that serve to define their attitude are welcomed on the financial markets. As much significance was attached to the action of the foreign exchanges and the grain markets as to that of the stock market, as the influence of other forces was manifest in the stock market. The adjournment of the Northern Pacific directors, for instance, without declaring that large extra cash dividend which was confidently predicted yesterday, proved disconcerting to a considerable speculative element which has been operating confidently on the strength of these predictions. Northern Pacific weakened materially after the adjournment of the directors' meeting and carried the list with it to a level below last night. This was in spite of the favorable showing made by the outline of the Northern Pacific rumors to come true cast a suspicion on a number of other rumors which were effective in yesterday's speculation and awakuned a fear that they had been prompted simply by a speculative manipulation. The afternoon weakness was traceable, in part, to the news of the embarrassment of an important bond house, having connections both in New York. The demand was associated with the war news and was the occasion
